Why CHOOSE US?

I. Introduction

Water is the essence of life and it should never be a source of problems. At Roentgen Separation Technologies, we understand this fundamental truth and dedicate ourselves to transforming troubled waters into sublime solutions.

II. Unique Expertise & Approach

We specialize in cutting-edge wastewater treatment solutions, leveraging our unique Roentgen Separation technology. This innovation allows us to stand on the forefront of the sector, propelling us beyond traditional methods and into revolutionary, more efficient techniques of wastewater treatment.

III. Comprehensive Solutions

Our extensive portfolio of services covers the full range of wastewater treatment needs. Built on flexibility, our solutions are carefully tailored to meet your specific requirements. Moreover, commercial viability and environmental sustainability are cornerstones of our work, ensuring our solutions not only solve your challenges but also contribute positively to our planet.

IV. Reliable & Efficient Service

We have a proven record of successful projects and an extensive list of satisfied clients, each a testament to our relentless commitment to quality. Certifications, awards and recognition from reputed bodies vouch for our high standards, timely delivery, and reliability.

V. Customer Support & Partnership

We value long-term relationships with our clients and work as partners rather than just service providers. Our responsive and knowledgeable customer support team is always ready to assist, making your experience with us smooth and rewarding. Additionally, our value-added services such as continuous maintenance and training ensure you get the most out of our partnership.

Experience the difference Roentgen can make for your wastewater challenges.

or to schedule a consultation.

We are always ready to help you turn troubled waters into a triumph of technology.

Let's make a difference, together.

About OUR COMPANY

OUR COMPANY was established in 2003 as “ RST INDUSTRIAL SOLUTIONS”, as a formulator of specialty chemicals for water, waste water treatment, maintenance and other industrial applications.

We also represent reputable European and Asian Companies for the supply and delivery of parts and equipment used in various industries, particularly in the field of filtration.

Moreover, our services extend beyond supply and delivery as we commit to providing excellent after-sales service to our client's satisfaction.

Roentgen Separation Technologie, (RST) Inc. is spearheaded by 3 key people and it grew to date with a total of more than 40 employees.

Comprises of administrative officers and managers, project managers, technical and sales engineers, technical and production staff.

Company expanded its operations from Luzon and Visayas down to Cagayan de Oro and Davao in the Mindanao Region.

WHERE ARE WE NOW

In line with our dedication to provide our customers with first-rate service, we incorporated RST Industrial Solutions and now under the new name ROENTGEN SEPARATION TECHNOLOGIE, (RST) INC.

As the requirements and evolving technologies unfold in this industry, RSTI recognizes that innovation and creativity are the keys to sustaining its competitiveness. This leads us to the formation of our Engineering Services Division which includes a group of engineers and technical people with expertise in waters and wastewater treatment design, plant construction, environmental management, and production control.

RSTI is aimed at sustaining a competitive existence, with the end in view of emerging in the tier of industry leaders within the medium term.
Rest assured that you can get high-quality service, prompt deliveries.

first rate materials and practical solutions from honest and competent professionals as we continuously improve our products and services to help our customers achieve greater decency and productivity.

EQUIPMENTS

Welcome to the heart of Roentgen Separation's water treatment solutions – our comprehensive selection of Water Treatment Equipment. We understand that access to clean and pure water is essential for the well-being of communities, industries, and the environment. That's why we offer a wide range of cutting-edge equipment designed to purify, treat, and optimize water resources.

WATER TREATMENT SYSTEM

◆ ACTIVATED CARBON FILTER

◆ SOFTENER SYSTEM

◆ MULTIMEDIA FILTER

◆ DEMINERALIZED WATER SYSTEM

◆ SAND FILTER

◆ POLISHING/MIXED BED FILTERS

◆ ULTRA FILTRATION SYSTEM

◆ CHLORINATION SYSTEM

◆ REVERSE OSMOSIS SYSTEM

◆ DISINFECTION SYSTEM

Experience the transformative power of clean water with Roentgen Separation Technologie. Discover our comprehensive selection of water treatment equipment and let us help you unlock the full potential of this vital resource.

EQUIPMENTS

At Roentgen Separation Technologie, we pride ourselves on being a leading provider of cutting-edge wastewater treatment equipment for a cleaner and more sustainable future. Our comprehensive range of wastewater treatment solutions is designed to meet the diverse needs of industries, municipalities, and organizations seeking effective and efficient ways to manage and purify wastewater.

WASTE WATER TREATMENT SYSTEM

◆ SEQUENCING BATCH REACTOR (SBR)

◆ MEMBRANE BIO REACTOR (MBR)

◆ MOVING BED BIOFILM REACTOR (MBBR)

Explore our range of wastewater treatment equipment and discover how Roentgen Separation Technologie can help you achieve your wastewater treatment goals with efficiency, reliability, and eco-consciousness. Contact us today to discuss your wastewater treatment needs and embark on a journey toward cleaner water and a greener future.

EQUIPMENTS

We recognize that pumps are the heartbeat of any water treatment system. Our Pumps section showcases a wide range of innovative pumping solutions designed to meet the demanding needs of water treatment facilities, industries, and municipalities. Whether you require reliable water transfer, efficient wastewater handling, or precise chemical dosing, we have the perfect pump for your application.

PUMPS

◆ SUBMERSIBLE PUMPS

◆ DEWATERING PUMPS

◆ AIR DIAPHRAGM PUMPS

◆ DOSING PUMPS

◆ SELF PRIMING PUMPS

◆ FIRE PUMPS

we take pride in offering pumps that combine cutting-edge technology with a commitment to reliability and efficiency. Our pumps are engineered to keep your water treatment processes running smoothly, ensuring the uninterrupted flow of clean, treated water. With a focus on quality, durability, and performance, Roentgen Separation Technologie is your trusted partner for all your pumping needs. Explore our diverse range of pumps and discover how we can help you optimize your water treatment systems.

CHEMICALS

At Roentgen Separation Technologie, we understand that water treatment is not just about equipment; it's also about the right chemicals to optimize the process. Our Chemicals Section offers a wide range of cutting-edge, environmentally responsible chemicals that are carefully formulated to improve water quality, maintain compliance with regulatory standards, and ensure the longevity of your water treatment systems.

BASIC CHEMICALS

- ◆ Sodium Hypochlorite
- ◆ Sodium Hydrogen Sulfide
- ◆ Sodium Hydroxide (Liquid, Pearl, Flakes)
- ◆ Sulfuric Acid
- ◆ Sulfamic Acid
- ◆ Filter Aid/Diatomeacious Earth
- ◆ Sodium Metabisulfite
- ◆ Hydrochloric Acid
- ◆ Hydrated Lime/Quicklime

WATER AND WASTE WATER

- ◆ Coagulant
- ◆ Ferric Chloride
- ◆ Aluminum Sulfate
- ◆ Flocculant (Anionic Cationic)
- ◆ Polyaluminum Chloride (White, Yellow)
- ◆ Sodium Permanganate
- ◆ Defoamer / Antifoam (Silicon, Alcohol Based)
- ◆ Aluminum Chlorohydrate
- ◆ Reverse Osmosis Antiscalant
- ◆ RO Antiscalants
- ◆ Biocides

MINING CHEMICALS / REAGENTS

- ◆ Polymers / Flocculant
- ◆ Frothers

Roentgen Separation Technologie Chemicals Section provides a comprehensive range of water treatment chemicals designed to complement and enhance the efficiency of your water treatment systems. Whether you're looking to improve water clarity, prevent scale and corrosion, or control microbial growth, our innovative solutions ensure that your water treatment processes meet the highest standards. Contact us today to learn more about how our chemicals can optimize your water treatment operations for a sustainable and compliant future.

SERVICES

At Roentgen Separation Technologie, our commitment to providing complete water treatment solutions extends beyond the equipment we offer. Our Services section showcases a comprehensive suite of professional services designed to ensure the success of your water treatment projects, from inception to ongoing maintenance.

INSTALLATION AND COMMISIONING

- ◆ Cooling Towers
- ◆ Filter Press / Dewatering System
- ◆ Water and Wastewater Treatment Plant

OPERATION AND MAINTENANCE

- ◆ Water Treatment Plant
- ◆ Wastewater Treatment Plant
- ◆ Cooling Towers

we believe that success is not just about delivering equipment; it's about providing the support and expertise needed to make your water treatment projects a success. With our range of services, you can trust that we are with you every step of the way, ensuring that your water treatment systems perform optimally, efficiently, and sustainably.

SERVICES

At Roentgen Separation Technologie, our commitment to providing complete water treatment solutions extends beyond the equipment we offer.
